Timeline:

We will be re-entering the building for Return Stage 2 in three waves rather than all at once: Members with offices/permanent desks will be the first to come back, followed by flex members as the second wave, and visitors/non-members will not come back until the third wave. We will be announcing when each wave begins closer to the time.

Decision Point: Every two weeks we will provide an update as to whether we will (a) move back a phase, (b) move into the next phase of reopening, or (c) stay another two weeks in the current phase. These decisions will be made according to government recommendations, which we are monitoring on an ongoing basis.
